“ *I met Sue in 1978, when I was hired at Forbes, and always remember her as a quiet, soft-spoken woman with a soothing voice. I don't think I ever heard her say a bad thing about anyone. X-Ray was like a second family; Sue was very much a part of that. She was the one who always brought cake in for birthdays! And I remember her talking about her grandmother and Jimmie, they really were what she lived for.*

“ *I know I told you, but I hope you know that you were my blessing. I thanked God everyday for having the most wonderful mom in the world. I don't know if you believed me. I hope he confirmed it for you now.*

“ I can't believe it's been a week I've never gone this long without you. I have to keep coming back here to confirm it's real. You were my life. There are those few seconds when I first wake up and forget that this is real. I wish I could just stay trapped there. I'm sorry I couldn't fight harder. You fought with everything you had. That place and those people shouldn't Even exist. You deserved so much better. I love you. I miss you so much.

Sue was a good supervisor and an even better friend. We started at Pittsburgh Hospital together and always joked that we were "baby technologists" and grew up together. She always offered help for anything.

“ Sue was a joy to work with. We celebrated birthdays and holidays and our lives were better because of her influence. Our patients and their scans were our focal point. Excellence was always her goal. I'm so sorry Jimmy, and family, for your loss. Your mom was a wonderful woman and great friend. God Bless her and you
Sincerely, Kathleen Garbowsky

Thank you Kathy. You really captured the pride she took in her work. She was an amazing woman. She loved you guys. Anything positive I've done in my life was purely because of her. I love that "excellence was always her goal." The combination of being so caring and nurturing while still expecting my best has served me enormously in my life. I'm broken right now and will be for a while. I'll miss her forever. But I'll be alright because as a mother she did her job 1000 fold.
God Bless you

“*Memories of smiles, childhood visits, running in the house, the great temptation to pound on the piano, and of course the magnificent stairway going up to a secret place where I was not permitted. Thank you Susan for traveling back in time with me. Love, Light, Peace and. Blessings to all who remain and those departed.*
